REGULAR SESSION OF  
TEMPE CITY COUNCIL

Tax Discussion Monthly Budget and Fire Protection Chief Topics

Tax discussion, the monthly budget and fire protection for the southern part of Goldman addition, formed the main business of the city council last night. The council is preparing to make estimates on which to base a tax levy. To that end committees were appointed to ascertain the best amount of money with which Tempe can do business during the next year, and on the estimate of these committees.

tees, will be based the coming levy. At the regular meeting Thursday night, there was a deal of routine business which the Tempe town council has been meeting lately in bi-weekly meetings. One of the most important matters was the consideration of a plan to extend the city fire system, so that residents in the Goldman addition, especially those at the southern end of Normal street might be assured protection from fire. Inside of a month work will be started on the hydrant installation in that section.

The new sewer system is still in the discussion stage. No action seems possible, though there is a lot of talking and planning. Three contractors were at the council meeting, and they were notified to figure on the job as outlined by the council. Evidently the first bids must be vague estimates of the actual work, but their submission will mean that something has gone forward in this matter.

If your children are subject to attacks of croup, watch for the first symptom, hoarseness. Give Chamberlain's Cough Remedy as soon as the child becomes hoarse and the attack may be warded off. For sale by all druggists.

## CHURCH NOTICE

## TOURNAMENT TODAY

The annual Salt river valley tennis tournament has at last arrived. The interscholastic series will consist of gentlemen's doubles and singles. In the free for all events ladies singles and doubles will be played in addition to the men's contests. In the ladies events representatives from Tempe Normal and individual entries from Phoenix will contend for honors. As a preliminary event to the regular all day tournament today the University of Arizona and Normal representatives played off two events last evening. In two days events the Evans school, the U. of A. the U. S. Indian school and the Tempe Normal will participate. It is not likely the rain will interfere with the games unless an unexpected heavy fall occurs.

Persons troubled with partial paralysis are often very much benefited by massaging the affected parts thoroughly when applying Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all druggists.

## SUMMONING JURYMEN

Sheriff Jeff Adams was a visitor in Tempe yesterday afternoon from Phoenix summoning jurymen for the Superior court. The jurors are expected to enter upon their duties Monday morning. Locating all the men in Tempe was somewhat of a job. At the conclusion of their work in town Sheriff Adams and Constable Estrada took a little drive in the country last evening.

## PLANS FOR NEW BUILDING

Within the near future architects will commence work on making of plans for the new manual arts building which it is proposed to build on the normal campus. (Not being the exact plans for the construction of the building itself, they come next best in being the ones which will be presented to the state legislature at its next session and which it is hoped will convince them that such a building on the normal grounds is of absolute necessity to carry the work on with the best of success in the school. Such was the conclusion arrived at when a meeting of

the normal board was held Thursday evening at the president's office with the architects present.

When you want a reliable medicine for a cough or cold take Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by all druggists.

## PAINTING SIGNS

Actual work is now in progress on the construction of the new street signs which are to be placed one on each block within the city limits of Tempe. Coincident with this matter the committee appointed from the city council for the purpose of making arrangements for the numbering of residences and business houses in Tempe expect to have their work completed. Subsequently the concluding of the work to this job, brought about by the necessity for such by the installation of city mail delivery, will be made altogether.

## CULVERT UNDER BRIDGE

A spacious concrete culvert is now under the course of construction under the new Tempe highway bridge where it crosses the Montezuma canal. The first cement was poured yesterday.

## HAYDEN

HAYDEN, Jan. 7.—The latest matter of general interest to this mining district is the appointment of Louis S. Cates, formerly superintendent of mines at Ray, to be manager of all the Jacking properties in Arizona. Before coming to Arizona, Mr. Cates was connected with the Boston Consolidated Mining Co. in Utah, and has now been in charge of the Ray operations for several years and is eminently fitted for the handling of the larger duties that will now be his.

W. S. Boyd who has been assistant superintendent of the Ray mines under Mr. Cates has been appointed to the position of superintendent. Mr. Boyd has been assistant superintendent for several years and is thoroughly equipped for carrying on operations along the same progressive lines that they have been conducted in the past.

A. E. Crenshaw is in Phoenix for a few days.

A. J. Maclean and Roy Schultz returned from Phoenix Sunday by auto with Bob Jones at the wheel.

C. M. Scott, supt. of the A. E. R. R. and J. C. McClure, engineer of maintenance for that line were visitors in Hayden Saturday talking in the district in lively terms, autos or other available conveyances after the track auto of Mr. Scott went on strike near Ray Junction.

Mrs. Joseph Fitzgerald has just returned from Phoenix where she was called a few days ago on account of the death of her grandmother.

J. E. Rowlands of Phoenix is in Hayden looking after the Burroughs adding machines in this locality.

Louis S. Cates, manager of the Ray Co. is over from Ray for a few days.

Dr. F. Norman of Phoenix arrived in Hayden Monday.

John C. Devine who has been with the Ray Co. at Ray from the early days of development and has been general mine foreman for several years has been appointed to succeed W. S. Boyd as assistant mine supt.

Eugene W. Miller assignee for the Jno. MacIntyre Co. is in town, having come over the mountains from Globe Sunday.

IMPORTANT MEETING  
OF DAIRY DIRECTORS

An Election of Officers for the Mesa Dairy and Ice Co. at 10 O'clock This Morning.

One of the most important meetings to be held this month, is called for ten o'clock this morning for the election of a board of directors of the Mesa Dairy and Ice Co. It is hoped that enough of the stockholders will be in attendance to insure a legal quorum. The company is composed of farmers and business men of Mesa and vicinity and under the by laws only a limited amount of stock can be held by one person; this makes it necessary for a greater number to attend the meeting, in order that a majority of the stock can be voted.

Since the last meeting of the stockholders several matters of moment to the company and its future have come to the front. It is to consider what is best for the future of the corporation that an early meeting for action be had. The directors, whoever they may be, will expect instructions on the proposition that have been presented to the company. One is to combine the cotton ginning business with the ice making plant, to such an extent at least that the machinery of the latter can be used to furnish power to the ginning plant. This appears to be something that will reduce expenses and at the same time afford an increased income for the M. D. & I. Co.

The company in question has been one of the most successful of the earlier organized companies of the community, having paid many hundred dollars in dividends. Everyone is interested in its success and it is probable that the stockholders will get together today, drop any friction that may have crept into the company's affairs and all pull together for the future prosperity of the enterprise and of the men who have been behind it for so many years.

Here is a remedy that will cure your cold. Why waste time and money experimenting when you can get a preparation that has won a world wide reputation by its cures of this disease and can always be depended upon? It is known everywhere as Chamberlain's Cough Remedy, and is a medicine of real merit. For sale by all druggists.

## CARPENTERS IN DEMAND.

Walter Tway was in from his ranch east of town yesterday, looking for carpenters. Mr. Tway is building a residence at his place and wants to hurry it along. Several others have been around looking for idle men who can handle a saw and plane artistically, but unable to find any who were not busy. There is an unusually large amount of building going on at present.

## IT WAS SOME ICE.

Walter Hill is back from an extended stay in the mountains where he was engaged in assessment work on some mining claims. Mr. Hill was at a high altitude when the cold wave struck Arizona and says that it was certainly the limit at his station. The ice froze to a thickness of two feet in the stream and it was necessary to cut through this to get water for his camp.

## CHANGE IN WEATHER.

The temperature rose quite rapidly in Mesa Thursday afternoon, and early in the evening the clouds began showing over the crest of the mountains. During the night following quite a rain fall occurred—sufficient to cause muddy streets all day yesterday. The street cleaning department was busy keeping the crossings clear for pedestrians.

## APPEAR TO BE SAFE.

W. S. Dorman, who with others, is interested in an experiment with orange trees on the high lands, near the Granite Reef power house, paid a visit to the young trees since the passing of the cold wave. These trees were planted in the open and had no covering, the theory being that the frost belt did not extend that near the foot hills. Mr. Dorman reports that the trees do not as yet, show any bad effects of the cold. It is of course a little early to tell whether or not they are damaged, but from appearances, Mr. Dorman thinks they were not seriously hurt. If this is true, an orange belt has been discovered that is immune from frosts. What that will mean to the lands in that section is easy to foretell.

## "COTTON IS KING."

The old time title accorded cotton appears to hold good for the Mesa section. Every day one or more farmers announce that they have decided to join the cotton growers' association and will send a portion of their lands to the state producer's exchange section. E. W. Hudson is over from Sacaton this week, conferring with the growers. Mr. Hudson is largely responsible for the farmers' eagerness in cotton growing on the Mesa, and takes a deep interest in the success of the industry.

## CHANGE OF FIRM.

The firm of Lesueur & Co. has been dissolved. The firm was composed of J. T. Lesueur and J. W. Lesueur, father and son. The business carried on is that of dry goods and groceries. As the stores are in two separate buildings, the change will mean that the

To arrive at the top in any department of commercial effort one must produce, offer and do better than has been produced, offered or done before. Fifty years ago we determined that Sunny Brook must be the finest whiskey distilled and aged in Old Kentucky and we have never deviated from this policy. Today we are known as the finest distillers of fine old whiskeys in the world.

Sunny Brook reached the top because it surpassed all others in mellow flavor, exquisite bouquet and tonic properties. The friends Sunny Brook made fifty years ago because of its high quality and purity are still its friends and all over the broad land a majority of the discriminating public demand Sunny Brook and absolutely refuse substitutes of any kind. Sunny Brook is a real honest straight Kentucky Whiskey and is bottled in bond. Every bottle is labeled and sealed with the "Green Stamp" under the direct supervision of U. S. Inspectors. ## INQUIRY FROM FRANCE.

Among the many inquiries received daily at the home of the Mesa Commercial club, came one yesterday from Andre Mader, "Advocat a la cour d'appel, 95 Boulevard Montmartre XVI." M. Mader wanted to know all about the irrigated and irrigable lands of the Mesa section. Several inquiries have been received from the Philippines, from Panama, from Mexico and a number from various parts of Canada and the Sandwich Islands; but this is the first the secretary has had from "La Belle France."

## NEWS IN BRIEF.

Rev. A. O. Pasley, pastor of the Christian church will preach morning and evening tomorrow. The morning subject will be "Fishers of Men," evening theme, "The True Source of True Courage."

Wm. McWhannet added several heaters to the Coliseum auditorium during the cold wave and reports the place now as comfortable as any place in town.

Mr. Oscar Maddox, a recent arrival from Idaho, is looking for a permanent location in the Gem City.

Engineer J. H. Childs is planning a trip to the Imperial valley in the near future.

After spending several months in Mesa and vicinity, F. J. Leavitt and family have removed to Casa Grande.

Mr. Ben Noble, who was laid up so many weeks from a broken leg, is now able to be up town again. He hopes soon to be able to resume his position in the Mesa Furniture store.

"The Third Degree" is billed for the Mesa opera house tonight. The advance sales have been quite satisfactory.

The Ellice Brizze place has been leased by Dudley Lewis and family, who recently moved in from the ranch.

Mrs. A. R. Tabor of Crider, Mo., had been troubled with sick headache for about five years, when she began taking Chamberlain's Tablets. She has taken two bottles of them and they have cured her. Sick headache is caused by a disordered stomach, for which these tablets are especially intended. Try them, get well and stay well. Sold by all druggists.
